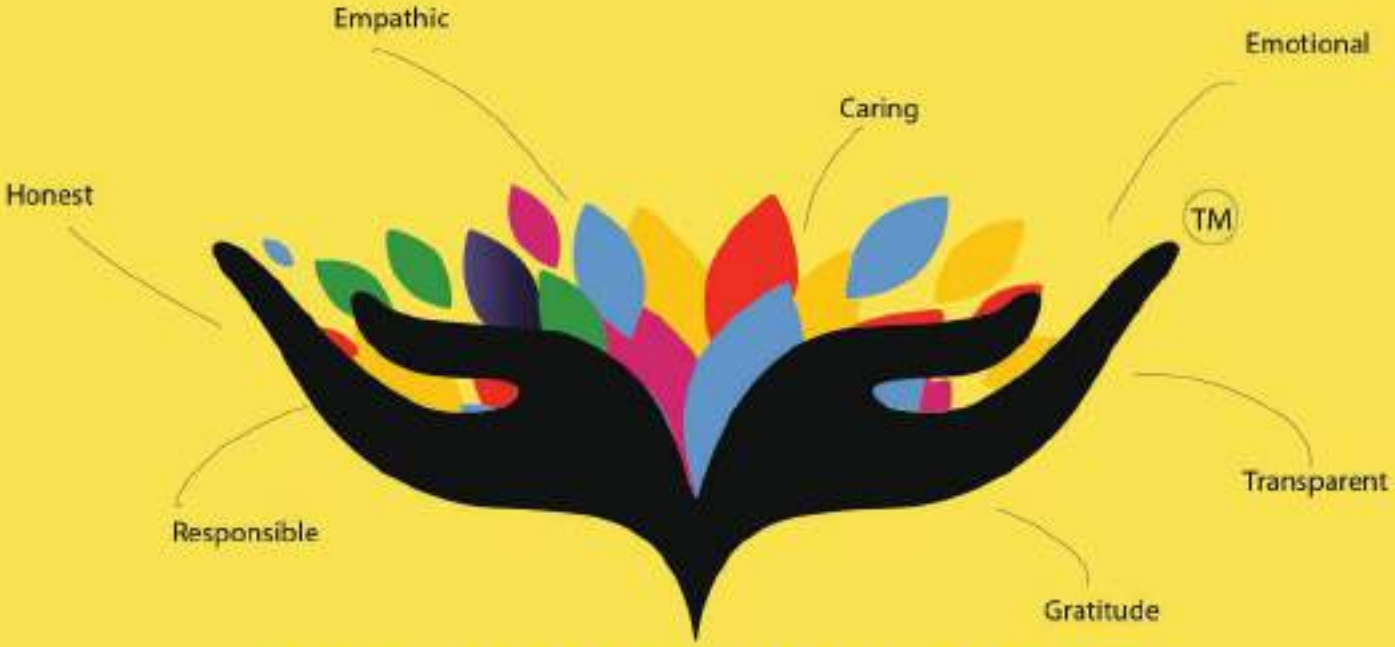
OUR LOGO STORY



ANYTHING WILL DO

AWDORG FOUNDATION

Charity starts within ...

Anything Will Do supports all activities that reflect and justify its name hence the logo has been created taking future operational possibilities into consideration. Multiple colours used in logo represent different variants; White colour is a representation of holding hands signifies the preservation of positivity and reflects our mission and vision.
Coloured petals represent various emotions like Blue is for calmness, empathy and tranquillity; Green represents freshness, productivity and willingness to help others; Red conveys love and emotion for the underprivileged; Yellow stands for happiness and positive energy;
Dark Blue is an indication of the integrity of our organisation; Purple shows our respect towards spirituality; Orange is for uplifting and encouragement.

Our logo signifies the importance of seeking
a bond of unity and harmony of people working towards a common goal,
while keeping their individuality and uniqueness intact. As very keen to have a logo justifies its name.
We created a logo keeping our current & future possibilities in area of its operations in mind.
White coloured shapes are helping hand which is holding on to life with positivity. Blue colour is for tranquillity and calmness. Green for freshness & fertility red for love & emotion. Yellow for happiness and energy.
Dark blue magenta It symbolizes trust, loyalty, wisdom, confidence, intelligence, faith, truth, and heaven.
Purple is the colour of spirituality. Orange stands for encouragement.
Our logo is a significance of a bonding towards unity & harmony besides its variations & individual uniqueness.

Thank you Agencyeleven100 for creating such a beautiful logo for us.

#PROJECT*ration*

During the devastating 2021 lockdown, countless underprivileged families were left without income, access to food, or basic necessities. At a time when survival itself became uncertain, donating dry ration kits became a lifeline for those pushed to the margins. AWDORG Foundation, through its relief initiatives, provided essential groceries to struggling families, ensuring no one slept hungry. This effort was more than just aid—it was an act of solidarity, a reminder that in times of crisis, humanity stands strongest when we care for one another.

During Lockdown we ran many cooked food drives and helped more than 8000+ families pan India consisting of the following : **5 Kg Wheat Flour + 2 Kg Lentil + 1 Kg Sugar + 500 Gram Tea + 1 Kg Sugar + 1 Ltr Cooking Oil + 1 Kg Salt**
we are keen to help pan India at any given time.

PROJECT*ration* is an ongoing food programme and we are more than willing to help any needy.

Milk is one of the most essential sources of nutrition for growing children, yet countless underprivileged families lack regular access to it. Through Project Milkeyway, AWDORG Foundation strives to bridge this gap by donating milk to children and mothers in need, ensuring they receive vital nutrients for healthy growth and development. This simple yet powerful act of care not only strengthens bodies but also uplifts lives—because every child deserves the nourishment to dream, grow, and thrive.

PROJECT*milkyway* is still an ongoing project for clusters in various areas.

#PROJECT*feedme*

Under Project Feed Me, AWDORG Foundation champions the cause of feeding stray and abandoned animals who are often forgotten in the rush of daily life. For these voiceless beings, a regular meal can mean the difference between suffering and survival. Donating animal food not only provides nourishment but also expresses empathy and shared responsibility for all life forms. When we care for animals, we create a more compassionate, humane society—because kindness isn't just for humans, it's for every soul that shares our world.

We have collaborated with FMCG companies for providing grinded material like biscuit crumbs which are left behind in excess during packaging. We pick up the same from the factories and mix it with milk or curd and feed the animals. Large number of packets of bread is also used as food for the animals on a daily basis. We run vaccinations & medical camps for strays regularly.

If you spot a stray who needs help, please bring it to our knowledge at **PROJECT*feedme*** desk.

#PROJECT*life*

This project was initially built for helping the marching migrants during Covid19 pandemic with sanitary pads, face masks, sanitizers & basic medical help. During lockdown 1 we were able to help over 20,000 migrants on Delhi NCR highways. We helped 213 migrants reach their homes safely. In lockdown 2 we saved almost 630 lives through hospital admissions, ICU beds, oxygen cylinders, oxygen concentrators, plasma, blood, platelets, medicines & many more.

At **PROJECT*life*** we are currently helping in Dengue emergency with platelets & other medical assistance.

ABOUT US

Anything Will Do (AWDORG Foundation) is a registered non-profit organization in India, founded by Charanjeet Dhiman and Deeksha Sati, and supported by a dedicated network of compassionate 200 volunteers worldwide. United by the belief that no act of kindness is ever too small, our foundation strives to serve both human beings and other living species with empathy, transparency, and action.

With a mission rooted in sustainable impact, AWDORG Foundation has been working at the grassroots level to support communities during times of crisis and beyond. The foundation rose as a strong support system during the COVID-19 pandemic, helping thousands through timely interventions in health, nutrition, and animal welfare.

Our Vision
To build a compassionate and inclusive society where no one is left behind, by bridging the gap between those who can help and those who need help.

Our Mission
To uplift the underserved and vulnerable through need-based, transparent, and volunteer-driven projects, focusing on healthcare access, food security, and animal welfare—ensuring dignity, opportunity, and care for all.

Our Motto
"Anything Will Do" — *Because even the smallest effort can create the biggest change.*

Our Key Focus Areas (2021–2022)

PROJECTlife – A Lifeline in Crisis
During the second wave of COVID-19, PROJECTlife emerged as a critical emergency response program.
At a time when medical infrastructure was stretched thin, AWDORG Foundation stepped in to help families in despair. We successfully:

- Arranged plasma donors for critical patients
- Coordinated blood donations and platelet support
- Facilitated ICU bed arrangements and ventilator access
- Assisted in oxygen cylinder and concentrator delivery
- Connected patients with urgent ambulance services and verified medical leads

With a network of ground volunteers, doctors, and online coordinators, PROJECTlife saved lives and restored hope when it was needed the most.

PROJECTration – Fighting Hunger One Packet at a Time
Food insecurity became one of the biggest issues during the lockdown. Under PROJECTration, AWDORG Foundation distributed grocery kits and cooked meals to individuals and families who had lost their livelihoods. Our efforts focused on:

- Providing dry ration kits to marginalized communities
- Distributing cooked food to migrant workers and slum dwellers
- Identifying high-risk zones and reaching out with doorstep delivery
- Collaborating with local kitchens and donors for maximum coverage

Our team ensured no one slept hungry, delivering dignity along with nutrition.

PROJECTfeedme – Because Strays Matter Too
While people suffered, so did voiceless animals. With cities locked down and feeders restricted, PROJECTfeedme identified and supported verified stray feeders across India. AWDORG Foundation:

- Funded local animal feeders and rescue volunteers
- Supplied dog/cat food and water bowls to high-need areas
- Created a pan-India network of feeder support
- Conducted awareness drives about community animal care

Our goal was simple—no stray goes hungry, even in a human crisis.

PROJECTeducate –
Two schools uplifted and add into our project educate centres by setting up degital lab/computer Learning Centre.
Donated laptops to underprivilledge students for their online classes during lockdown.
Fees paid to less fortunate students.
